LOCAL MATTERS.

Church Notes.

Sunday was a bright, clear day, dimmed only by the dust which swept along the surface of the streets in disagreeable density and forceful freedom that did not in the slightest comport with comfort. Yet the church-goers thronged the streets, braving the blasts of March and delying the dust as they moved in numbers to the places of worship.

The clerk read a communication from the Mayor returning without his approval the resolution muthorizing the sale of the old steam-pump. The Mayor thought it impolitie to sell it because of the possibility of an emergency such as had once before visited the city, and on this account wanted the city Council to assume the responsibility of sale.

Mr. Hargrove said the city was paying \$150 a month ground rent and water rent, and on this account wanted the property PARK-PLACE.

"The Eleventh Chamber has just rendered its decision in a matter which interests cigarette-smokers. It was the case of Messrs. Gaston D'Argy & Co., inventors and manufacturers of the celebrated Papier Ambre (amber-tipped paper), against one Prodon, who had counterfetted and placed on sale an imitation of the original. The Eleventh Chamber has rendered a severe judgement. It imposes upon M. Prodon a fine of two thousand francs and condemns him to pay four thousand francs damages to the plaintiffs until a more considerable indemnity could be indeted by the State, and he is also obliged to publish the decision of the court in ten Paris jour; nals, at his own expense,"—From Le Frgaro, Paris.
